

VOTEX[®] LANDMASTER

Simple robust flailmower for the mowing and pulverising of grass, weeds and other unwanted vegetation

The Votex Landmaster is a new developed flailmower with superior design features suitable for mowing wastelands, grasslands, landscaping and scrub clearance. Robustness, heavy-duty transmission and unique configuration of rotor and flails, offering an efficient high capacity machine. With the double three-point linkage and 1000 rpm gearbox (with incorporated freewheel) the machine is suitable for front and rear mounting. Special is the railconstruction for the side shift which is fully integrated in the mowing head giving it extraordinary strength withstanding great loads. Another advantage of this concept is that the mower is linked up on top of the machine bringing the point of gravity close to the tractor. The landmaster is provided with a heavy-duty driveline able to transmit high power. The positioning of the 1300 grams hammer flails on the rotor allows a regular rotation; good lifting for a better cut and uses less power

Railconstruction of side shift

Side shift 60 cm (with double 3-points linkage)

Votex Landmaster	240	275	310
Working width (cm)	237	273	308
Overall width (cm)	265	299	331
Weight (kg)*	840	1025	1115
3-points linkage cat.I	II+III	II+III	II+III
Min.power required (kW)	50	60	70
rpm PTO	1000	1000	1000
Mowing height (cm)	2.5 - 7.5	2.5 - 7.5	2.5 - 7.5
Side shift (cm)*	60	60	60
Max. offset from tractor centre*	166	201	236
rpm rotorshaft	2000	2000	2000
Ø Rotorshaft (mm)	194	245	245
Ø Roller (mm)	159	220	220
Number of flails	26	30	36

* with double 3-points linkage

Rotorshaft Ø 245mm

Roller Ø 220 mm

Hammer flails 1.3 kg
